Victoria Square, Adelaide,
South Australia 5001
228 4811

GITSHAM TRANSPORT ENGINEERS.

The Premier, Mr. Dunstan, today announced plans for a \$500,000 expansion of the Gitsham Transport Engineers plant at Kilkenny.

Contracts have been let for the first stage of the expansion, which will cost almost \$200,000. The company hopes the completed extensions will increase the manufacturing area available to it by more than 30 per cent.

The plant's truck body and equipment section will be modernised and expanded, and one of the largest commercial spray painting complexes in Australia will be installed.

Mr. Dunstan said the expansion programme would add to the State's industrial resources, and the growth of Gitsham Transport Industries would benefit South Australia greatly.

Mr. Dunstan said Gitsham truck bodies were used throughout Australia, and the company built their products better and more economically than most interstate companies.

Gitsham produces a range of specialised truck bodies, ranging from 250 tonne road trains to small tip trucks. Gitsham is a major contractor to the Electricity Trust, Highways Department and many other Government and semi-Government bodies.

The Managing Director of Gitsham Transport Engineers, Mr. J.D. Gitsham, said Adelaide could be a major centre of truck building in Australia. The extensions to the company's plant will greatly increase the available capacity, he said.

Mr. Gitsham is also the South Australian Chairman of the Productivity Promotion Council and is a member of the national Council.
